

Worm Bin Animal Hunt!

Materials Needed:

- ~ Small containers or plastic trays.
- ~ Toothpicks or tweezers.
- ~ Magnifying glass.

Directions:

1. Place about 1/2 cup of vermicompost from your worm bin onto your tray.
2. Use a toothpick or tweezers to look for animals similar to those pictured below.
3. Circle the ones you find.
4. When you finish return the animals and other organisms to the worm bin.
